1-16-1f. P. J. Campbell, Agt.

Owing to the bad weather THE HERALD is requested to announce that Mrs. Ira Killough will entertain the card club on Friday afternoon at 3 o'clock, instead of Wednesday afternoon, which is the regular time of meeting.

THE HERALD is in receipt of a copy of The Battalion, a neat and newsy 5-column paper published by the A. & M. College boys. Among the items of interest contained therein is one stating that a civil engineer's thesis on the subject, "The Design for a Waterworks System for Brownsville," by Celdonio Garza, Jr., son of Sheriff Garza, of this city. The young man is taking a course in civil engineering, and will graduate at the college this year.

Singer oil, bands, needles, and all kinds of repairs at the Singer office on Elizabeth street, first door south of Combe's new building. 16-1f. P. J. CAMPBELL, Agt.

A letter from M. J. Gregory, of Sour Lake, requesting sample copies of THE HERALD, states that he desires to learn something of the Brownsville country, as a few families of that section contemplate coming here. THE HERALD is doing everything possible to induce immigration to this section, and flatters itself that its efforts are bearing fruit. Every mail carries sample copies of this paper, and if you are not represented in the columns of this paper you are standing in your own light.

## PERSONALS.

G. R. Scott, an attorney of Corpus Christi, is here to attend district court, having arrived last evening.

J. R. Dougherty and J. C. Beasley, two prominent attorneys of Beeville, arrived last night to attend district court.

J. W. Crate, representing Hamilton Bros., gents furnishes, at Houston, arrived in the city last evening on one of his periodical visits.

S. C. Moore, of the Miller, left this morning for Corpus Christi, to meet his wife, who comes from Fort Worth for a short visit to Brownsville.

E. M. Hartrick and Geo. C. Angier, governments engineers, who are at the Point in connection with the dredging work soon to begin at Brazos Santiago, spent Sunday in Brownsville. They returned to Point Isabel yesterday.

Judge E. A. Stevens, of Rockport, arrived last night, and will immediately begin the disposal of a number of cases in which he sits as special judge, Judge Stanley Welch being disqualified, by having been former counsel in the cases.

THE people of Brownsville may rest easy on the question of electric lights for this city. THE HERALD has been assured that work will begin in a short time on the plant, arrangements having already been made for the work. The Peoples Ice & Mfg. company are rushing work on the ice plant, and will complete same in a short while. Then the light plant will be put in at once. Our people have done without lights so long that it is a hard matter to realize that we are soon to emerge from darkness into the bright electric glow of street lamps, but such is the case, and ere long Brownsville will be thoroughly up-to-date so far as the light proposition is concerned.

Wood and charcoal are two very scarce articles in Brownsville at present, caused in a measure by the long continued bad weather. The price of charcoal has usually been from three to four bits Mexican money, per bag, but the price has recently advanced to one dollar. Wood is selling at a centavo a stick, stove length, and is scarce at that price. Doubtless there has been a good deal of suffering among the poor classes during the past few days on account of the scarcity and high price of fuel.

The streets are getting to be very sloppy and uncertain for walking, and the present spell seems to have no intention of letting up. The average citizen would willingly dispense with present conditions, but the weather clerk seems to have small regard for what we poor mundane creatures think about it. During the entire time no ice has been reported, and the thermometer stays well up in the thirties, which fact is very pleasing to our truck farmers.

District court met this morning, took up the appearance docket and then adjourned until tomorrow morning. The special judge will probably begin hearing cases which are to come before him, tomorrow. The civil docket has been set for the third week of court, and Judge Welch announced he would make no peremptory call of any civil cases before that time.

There will be a special meeting of Knights of Pythias Lodge, Wednesday night. Don't fail to attend.

Don't forget to send the WEEKLY HERALD to some friend.
